

PHILLIPS DISPENSER RISER DIESEL DECAL APPLICATION INSTRUCTIONS

1. Clean any heavy grease with degreaser or surface cleaner like Formula 409. Do not use glass cleaner, as this can remove paint.
2. Clean with 50% solution of isopropyl alcohol (IPA) and water, wipe off with low lint cloth, let dry thoroughly.
3. Peel about 1" of backing from decal (leaving pre-mask on front for handling).
4. Position decal on riser at 7-3/8" from edge of riser and press edge onto riser surface.
5. Peel more of backing away and use squeegee to apply decal to surface. Use back and forth motion with squeegee as shown.
6. Wrap edge of decal around edge of riser.

DECAL RISER
14.81X11.25 66RF,
P66 ENCORE
SHIELD DSL,
PN 766683

Remove riser from dispenser if necessary to wrap decal around edge.
